

Red Star Natural Liquid Soaps Pony Polish Natural Horse Shampoo

Red Star was formed five years ago by Tim and Elaine Woodley whose realisation that there was a high demand for genuinely natural soap and shampoo led them to begin production of the Red Star range by making hard bar soaps in their kitchen. The hard bar soaps proved successful and after a while people began asking for liquid soaps, which Tim and Elaine now specialise in.

Natural dog shampoos followed and with its success came continuous requests for natural horse shampoos. Although long term dog owners and all round animal lovers, Tim & Elaine had no experience with horses, but determined to produce the right products for the job they advertised for horse owners to help them develop a natural equine liquid and hard bar soap. The end result of much careful work and development is Red Star Pony Polish Natural Horse Shampoo. Available in 1000ml liquid, 940g log and 125g bar.

Red Star now specialises in natural soap formulations and all of their products are made from original, constituent, raw materials. They don't use ready made ingredients; All of the Red Star products are made from scratch with no 'ready to use' ingredients included.

All Red Star products are,

- Hand made using low impact methods.
- Naturally moisturising.
- Good for sensitive skin, animal and human.
- Free from all artificial additives.
- Completely free of all animal products.
- Supplied in refillable, reusable, recyclable dispensers.
- Made to the highest standards of animal welfare. Our finished products are not tested on animals and we apply a fixed cut off date to all of the raw materials.
- Specially made predominantly with olive and castor oils to be mild and gentle for your horse, and your hands!
- Pony Polish is low lather, reducing rinse time and water usage, and 100% biodegradable.
- Fragranced only with pure essential oils, your horse will never look, feel or smell better!

Tim Woodley says 'Don't take our word for it; see what the people who have already used it think...'

Wendy Turner Webster & Stychlands Charlemagne (Charles!) are delighted with the outstanding results from using Red Star Pony Polish. Charles is a family pet as well as being a National Show Hunter Pony Champion. Preparation for the show ring always starts with a bath using Pony Polish.
Wendy Turner Webster – TV Presenter, owner of Stychlands Charlemagne.

"I'd just like to let you know that while I've been using Pony Polish my own hands have never been better. Even other people have commented. Working around horses has left them in such a state. They have been dry, cracked and brittle for years. They are now becoming softer and more pliable than they have been for a long time. An unexpected bonus. Thank you."
Monica Beeston – Manager, Stychlands Stud, Staffordshire.

"I shampooed Hannah's mane and tail using the hard bar and found that it was easy and soft to use with a pleasant smell. It got rid of her scurf and had a low lather, rinsed out easily and quickly. Her hair was left soft, tangle free and very manageable. It has stayed this way despite her being out in heavy rain on several occasions.
My friend, Helen washed her horse, Buster Keaton, who is 34 years old using the liquid. She said it rubbed in very well with a rapid rinse. Very good with an elderly pony who must not be wet for too long. It gave a very good shine leaving the mane and tail easy to brush and comb."
Moira and Helen – Owners of Hannah and Buster Keaton

"I have washed my rescue horse, Badger, who is very large 17 hands and is black and white. Both the hard bar and liquid made the white look really dazzling and the black shine. I've never seen him shine like it. Also, the flies did not bother him for nearly a week."
Anthea – Belbroughton Animal Sanctuary, Worcestershire.
